

## Autumn Winter 2007/08 Leather Goods Collection

*'Ermenegildo Zegna launches a Heritage Luxury Leather Goods Collection'*

Since 1910 Ermenegildo Zegna had the vision to bring the best wool fabrics to the world. This tradition continuing today with our vision to bring a complete Leather Goods Collection that's distinctive, elegant and will become classic the world over. The line has been developed for a man who appreciates serious business and the correct accessories in life.

### **Black is Back**

As always we start with noble materials – a classic black cowhide with an exclusive goat skin print texture. The interiors are lined with an iconic black pinstripe of the Zegna House with a true '*cimossa*' (*selvage*). The hardware is distinguished with a palladium plated brass lock, polished and brushed to create accents of brilliance and subtlety. The lock can open and close with one hand, and clicks like a guarded safe.

The Collection consists of a varied and extensive range in both black and brown. From briefcases in single, double, document sizes, pochettes, messenger bags, hold all for the weekend get away, to the trolley for the business man on the go.

Small Leather Goods are suited for the discerning customer. From coat wallets, billfolds, card cases, coin purses, passport covers, to key holders provide the man with the complete look of matched accessories.

### **Alligator for the Rare Connoisseur**

Another expression to complete the heritage luxury offer – a rare range in brilliant alligator in tasty dark chocolate.

The rich deep hues of chocolate alligator – tanned, aged and polished by hand to sheer perfection will last a lifetime. No expense and detail were spared to create a luxury range that's peerless. The hardware is exclusively in gold detail, matching the warm hues of alligator in tempting tones to meet any appetite.

The collection consists of single, double briefcases, holdall, pochette, billfolds, coin purses and card case to tease a wanting collector. Start a heritage collection and build a lasting archive that you will want to pass on to future generations.

Available this Fall/Winter 2007, in select Ermenegildo Zegna's Boutiques this June worldwide.
