

ERMENEGILDO ZEGNA SUNGLASSES COLLECTION 2009
'Natural Elegance'

The Ermenegildo Zegna 2009 Sunglasses Collection, is the perfect touch to complete the image of a man with refined, contemporary elegance and understated style. The mood of this collection, reflects the luxurious spirit and stylistic canons of the main collection: luxurious natural materials, sleek lines, and the latest fashion trends but always with a spirit of creativity, innovation and focus on details that are the true hallmarks of Ermenegildo Zegna style.

The choice of precious woods for the frames, such as Zebrano, Makassar, Moor Oak, Bamboo and Madagascar, renders this new line unique and exclusive. The variety of natural coloured woods creates a myriad of nuances in tones and hues.

Production techniques are as always sophisticated. Diverse materials are used in frames to create a playful yet refined contrast. Bi-colour layered acetates frame fronts are paired with wooden arms, fusing technology with nature. Another apparent feature of this latest collection is the contrast between the shiny and opaque finishes on acetate.

Leather is another natural material used. Its exotic sensuality is emphasized in its varied treatments and colours. Suede details on the bridge and temples are visible both from the inside and outside the glasses, with a laser-engraved logo.

The models offered in the most traditional colours are presented in hammered leather, referencing the beautiful leather accessories as created by Ermenegildo Zegna. The screws are purposely evident on the front piece of the frame conveying a precision engineered look.
